## **1. INTRODUCTION**

This plan will address the specific accessibility requirements in relation to the 2026 Municipal Election in the Township of Blandford-Blenheim.

The Township of Blandford-Blenheim has made great efforts in promoting a barrier free community. In an effort to ensure that the 2026 Municipal Election is consistent with the core principles of the Accessibility for Ontarians with Disabilities Act, 2005, this planning document was developed in advance of the election in order to identify measures to be taken and reported to Council following the election.

## **2. OBJECTIVES**

This plan is intended to highlight measures that the Township of Blandford-Blenheim will be implementing to ensure equal opportunity for all electors and candidates. These objectives include:

- That persons with disabilities are able to independently cast their vote and verify their selection.
- That persons with disabilities have full and equal access to all information on where and when to vote and on eligible candidates.
- That persons with disabilities can fully participate in the Municipal Election as an elector, candidate, or election official.
- That efforts are made to ensure that electors with disabilities are aware of the accessibility measures available via channels such as the newspaper, media launches, the Township of Blandford-Blenheim website and social media.
- That all voter assistance centers are accessible.

### **3. DEVELOPMENT OF THE PLAN**

This Plan is a “living” document which will be improved and updated as best practices are identified and new opportunities for improvement arise. In order to develop the plan below, several steps were taken in order to ensure that the statutory requirements were met and a feasible implementation plan was in place. During the development of the 2026 Municipal Election Accessibility Plan, the following steps shall be implemented:

- Review and analysis of documents, policies and other supporting materials from AMCTO, neighboring municipalities, the Ministry of Municipal Affairs and Housing, technology suppliers and other various stakeholder groups.
- Establish staff training standards and practices directly related to the Election to ensure that people with disabilities are able to vote in a positive customer service environment, and ensure that all election staff recognize that a voter’s needs shall be accommodated.

### **4. VOTING METHODS**

The 2026 Township of Blandford-Blenheim Municipal Election will be working with Intelivote Systems Inc. to provide eVoting services to eligible voters. This includes the convenience and independence of voting from anywhere via internet and telephone voting, with in-person voter assistance centers available to support voters during the October 13 – 26, 2026 voting period.

Everyday tools like computers, telephones and other aids can present accessible opportunities for persons with disabilities to accomplish more, while being consistent with the principles of independence, dignity, integration and equal opportunity.

The Intelivote Voting System provides voters with the capability to vote from the comfort of their own home. Voting from home facilitates the voting process for persons with disabilities who may have mobility restrictions, visual impairment, and/or have a difficult time with transportation. Additionally, persons who have assistive devices set up in their homes can now use them to assist with casting a ballot privately and independently.

By allowing persons with disabilities to vote from any location and from a selection of methods, there is an increase in the capability for the voter to vote without any assistance. This provides persons with disabilities the same independence and privacy in participating in the election as other voters. If persons with disabilities do require assistance in the voting process, trained election staff will be present at in-person voter assistance centers offered across the Township of Blandford-Blenheim, throughout the voting period.

#### **4.1 Telephone Voting**

Eligible voters may vote using a touch-tone telephone, and the toll-free telephone number, date of birth, and the PIN number contained in their Voter Information Letter to access an audio ballot. Communications barriers can make it difficult for people to receive or convey information. Barriers may be identified as low volume, use of language that is not clear or plain, and confusing or unorganized menu options.

The Intelivote telephone voting application provides the following:

- Service on all types of touch tone phones and wireless devices.
- Clear, plain language.
- Menu options that are easy to follow, advising when to select options and provision of confirmation of the voter's selections.
- Standard volume is used to allow for adjustment dependent of the telephone or device being utilized.

#### **4.2 Internet Voting**

Eligible voters may vote online, using a smart phone, tablet device, gaming device or computer and any accompanying assistive devices or software, along with their date of birth and PIN and qualifying information, to access the internet address provided in their Voter Instruction Letter.

The Intelivote System has been created to meet the Web Content Accessibility Guidelines (WCAG-2 Level AA), so that persons with disabilities can perceive, understand, navigate and interact with the online voting system. It is compliant with the guidelines of the World Wide Web Consortium website principles, which include organization, functionality and readability of information provided, as well as alternative ways of representing information, such as with audio.

#### **4.3 Voter Assistance Centers**

For individuals who do not have access to a telephone or the internet, or who require assistance, the Township of Blandford-Blenheim will establish Voter Assistance Centers during the voting period.

All votes in the 2026 Municipal Election will be cast using internet or telephone voting. Voter Assistance Centers will not offer paper ballots. Instead, these locations will provide access to voting devices and trained Election Officials who can assist electors in navigating the voting process, while maintaining the privacy and confidentiality of each ballot.

Voter Assistance Centers will be accessible and equipped to accommodate individuals with disabilities, including barrier-free access, adequate lighting, seating, and space for mobility devices. Accessible voting areas will be arranged to allow electors to vote independently and in secret.

Electors may attend any Voter Assistance Centre during the voting period. The Township will operate the following location(s):
